

SUMMARY

Dedicated and skilled JavaScript developer with 2+ years of professional experience (2 Yr 3 month in frontend development using React.js, and -1 yr of experience in backend development with Node.js) and alongside 5 years as a Tekla software detailer, overall of 7 years of experience. Dedicated to continually improving my technical skills while striving for the success of the company and personal growth in my career.

Completed comprehensive training in DevOps, equipping with a solid understanding of their principles and functionalities. While I haven't yet applied this knowledge in practical projects, I am eager to leverage my skills to contribute effectively in relevant environments.

EDUCATION

Bachelor of Engineering (B.Tech)

Vidya Vikas Institute of Engineering and Technology, (VTU)

July 2013-July 2016 Mysore, Karnataka

SKILLS AND TOOLS

Full-stack development Front-end development

JavaScript React HTML5 CSS REST

Redux JSON Material UI Bootstrap

Visual Studio APIs Application development

Back-end development DevOps Express.js

Node.js MySQL AWS Docker Databases

Continuous integration Git Kubernetes

Jenkins Version control systems Relational databases

PROJECTS

➤ VIRTUELE

The platform is to bring down the reusable BIM data creation time by at least 50% through VIRTUELE design automation tools and eliminate your frustration during construction.

➤ Unlimited Power Learning (UPL)

The platform is an online learning platform that offers an array of courses, guiding candidates who are restarting their careers. This platform serves as a comprehensive resource for individuals seeking to re-enter or redirect their professional paths.

➤ Unlimited Power Learning (UPL) Research Center

This website is for individuals interested in contributing to website development. Can select any topic of their choice and start implementing a module in that area.
